WATER USERS AGREEMENT

The initial installation of a water service includes the placing of a water meter not more than 10 feet inside the User's property by The Company. The customer shall install and maintain at his own expense a service line which shall begin at the meter. The Company will provide (upon initial installation) a shut-off valve on the service side of the meter. This valve, once installed, becomes the property of the User. Any repair or replacement is the sole responsibility of the User. All other apparatuses (including the meter and box) remain the property of The Company who shall determine placement of the water meter and shall be provided full access to said meter at all times.

Charges will begin immediately upon installation and are based on consumption. A minimum monthly charge shall apply so long as the meter remains in place, even if no water is being consumed.

Billing statements are mailed on a monthly basis. Failure to remit any amount payable within the allotted time will subject the service to be interrupted with no notice.

The Company accepts no responsibility for mail services. It is the User's responsibility to contact The Company if the billing statement is not received in a timely manner.

It is the responsibility of the User to request termination of services in the event they are no longer desired. The User shall be responsible for all charges until the date of such notification.

The meter is provided for a single family dwelling. Any exceptions should be noted here: _____
